

Index of Subjects

Volume 143, 1993

Accessory cells

- key immunocytes of the integument
- keratinocytes, 325

Acquired immunodeficiency syndrome

- disseminated BK type polyomavirus infection
- central nervous system disease, 29
- HIV-1 RNA
- in situ* hybridization, retinal vascular wall, 1275
- related non-Hodgkin's lymphoma
- Epstein-Barr virus-latent gene expression, tumor cell phenotype, 1072

Addressin

- human peripheral lymph node vascular
- involvement in homing, 1688

Adenocarcinoma

- colorectal
- microvascular pericytes, platelet-derived growth factor- β receptors, 1389
- ocular pathology
- rasT24* oncogene, 20
- pancreatic
- K-*ras* oncogene activation, 545

Adenoma

- ocular pathology
- rasT24* oncogene, 20

Adhesion

- cell-cell and cell-matrix proteins
- sinusoidal endothelial cells, normal and cirrhotic human liver, 738
- ICAM-1 expression
- ischemia/reperfusion, rat heart, 410
- tumor necrosis factor- α and interleukin 1
- limb ischemia/reperfusion injury, associated lung injury, 453

Adhesion molecules

- cytokine-induced expression of human leukocyte antigens
- myotubes, 1142

Aging

- advanced glycation end products
- newly characterized receptor, tissues, 1699
- dependent basal level and induction capacity
- copper-zinc and manganese superoxide dismutase, leukocytes, 312
- diabetes and
- human sympathetic autonomic ganglia, 143

Airway

- upper
- immunohistochemistry, intraepithelial and sub-epithelial mononuclear cells, 1436

Albumin

- early coronary atherogenesis
- plasma protein insudation as an index, 496

Alexander disease

- overexpression and abnormal modification
- α B-crystallin and HSP27, 1743

Alzheimer's disease

- biochemical and anatomical redistribution
- tau protein, 565
- neurofibrillary tangles
- immunocytochemistry, β -protein precursor, 1586
- pathogenesis
- antithrombin III and its mRNA, 886
- "preamyloid" of diffuse plaques, 1594

Amylin

- immunoreactivity and expression
- gastroenteropancreatic endocrine tumors, 283

Amyloid

- resistance
- characterization, inbred CE/J mouse strain, 1480

Angiogenesis

- anti-angiogenesis properties
- ribonuclease inhibitor, reduced tumor growth in mice, 507
- correlation with metastasis
- invasive prostate carcinoma, 401
- increased expression
- vascular permeability factor, kidney and bladder carcinoma, 1255
- macrophages
- production of thrombospondin 1, 678
- morphological aspects
- liver metastases, 926
- regressing thin cutaneous malignant melanoma, 99
- role of endogenous basic fibroblast growth factor
- release by aorta after injury, 181

Antigen-presenting cells

- key immunocytes of the integument
- keratinocytes, 325

Antithrombin III

- mRNA and
- pathogenesis, Alzheimer's disease, 886

Aorta

- fatty streaks
- transitional features, human atherosclerosis, 1444
- migrating endothelial cells
- fibronectin expression, U937 cell adhesion, 173
- release of endogenous basic fibroblast growth factor
- angiogenic role, 181
- smooth muscle cells
- basic fibroblast growth factor, MyoD conversion, 269

Apolipoprotein B

- early coronary atherogenesis
- plasma protein insudation as an index, 496

Apolipoprotein J

- megakaryocyte-synthesized
- platelet activation, 763

Apoptosis

- activation by microtubule antagonists
- rat hepatocytes, 918
- suppressing oncoprotein *bcl-2*
- detection of, hormone-refractory human prostate cancers, 390
- suppressing protein *bcl-2*
- neuroblastoma, unfavorable histology and N-myc amplification, 1543
- T cells
- experimental autoimmune encephalomyelitis, 446

Artery

- control of smooth muscle cell migration
- basic fibroblast growth factor, 1024
- endometrial mucosa
- tumor necrosis factor- α and its mRNA, 480
- pulmonary
- active collagen synthesis, human primary pulmonary hypertension, 121

Arthritis

- acute side effects
- homologous interleukin 3, monkeys, 1621
- experimental
- onset, role of phagocytic synovial lining cells, 1226
- rabbit models
- metalloproteinases, 628

Astrocytes

- DNA synthesis and proliferation
- down-regulation by interleukin 4, 337

Astrocytoma

- normal and neoplastic human brain

- integrin receptors, 154

Atheroma

- cardiac tissue in diabetes mellitus
- immunohistochemistry, advanced glycosylation endproducts, 1649
- inducible VCAM-1 expression
- vascular smooth muscle, rabbit, 1551
- megakaryocyte-synthesized apolipoprotein J
- platelet activation, 763

Atheromatous plaque

- macrophages
- plasminogen activator type 1, production by endothelial cells and vascular smooth muscle cells, 875

Atherosclerosis

- coronary
- intimal microvessels, immunohistochemistry, 164
- defense mechanism gone awry, 987
- human
- transitional features, 1444
- type I collagen gene expression, 1634
- plaques
- expression of osteopontin mRNA, macrophages, 1003

Basal lamina

- excisional wound repair
- spatial and temporal patterns, TGF- $\beta_1/\beta_2/\beta_3$, 368

Basement membrane

- degradation of endothelial cell matrix
- heparan sulfate proteoglycan, elastase, 907

B cells

- clonal populations
- paraffin-embedded tissues, polymerase chain reaction, 230
- humoral and cellular immunopathology
- hepatic and cardiac hamster-into-rat xenograft rejection, 85

bcl-2

- apoptosis-suppressing protein
- neuroblastoma, unfavorable histology and N-myc amplification, 1543

Bile duct

- epithelial cell proliferation
- inhibition by octreotide, fibrosis after biliary obstruction, 1574

Bladder neoplasms

- p53 nuclear protein accumulation
- mutations in *p53* gene, tumor grade and stage, 1389

Bleomycin

- induced pulmonary fibrosis

rat alveolar myofibroblasts, α -smooth muscle actin, 1754

Blood flow

atherosclerosis
defense mechanism gone awry, 987

Bone marrow

transplantation
white pulp reconstitution, 1111

Borrelia burgdorferi

chronic Lyme borreliosis
laboratory mouse, 959

Brain

cerebral atrophy and microphthalmia
infection at midgestation, murine cytomegalovirus, 804
experimental autoimmune encephalomyelitis
apoptosis, T cells, 446
normal and neoplastic
integrin receptors, 154
transgenic mice
foamy virus proteins, multinucleated giant cells, 648

Breast

expression of parathyroidlike protein, 1169
neoplasms
CD44 expression, association with survival, 867

Bronchus

epithelium
response, ambient concentrations of ozone, 857

Burns

healing wounds
localization, mRNAs representing collagenase and TIMP, 1657

E-Cadherin

differential loss of expression
infiltrating ductal and lobular breast carcinoma, 1731

Calcification

atherosclerotic plaques
expression of osteopontin mRNA, macrophages, 1003

Carcinoembryonic antigen

transcription
normal colon and colon carcinoma, 250

Carcinogenesis

growth properties and physical state
HPV type 16 genome, cervical tumors, 832

Carcinoma

human bronchogenic
production, interleukin 1 receptor antagonist, 794

Carcinoma, acinar cell

derivation of ductlike cell lines

rat pancreas, 292

Carcinoma, bladder

increased expression
vascular permeability factor, 1255

Carcinoma, breast

infiltrating ductal and lobular
differential loss, E-cadherin expression, 1731

Carcinoma, colonic

transcription of carcinoembryonic antigen, 250

Carcinoma, gastric

association of Epstein-Barr virus
lymphoid stroma, 1063
Epstein-Barr virus, 1250

Carcinoma, kidney

increased expression
vascular permeability factor, 1255

Carcinoma, lung

immunohistochemical study of p53, 199

Carcinoma, mammary

immunocytochemical localization
secreted TGF- β_1 , 381

Carcinoma, pancreatic

acinar cell
cell lineage markers, p53 and K-ras, 685

Carcinoma, prostatic

invasive
tumor angiogenesis, correlation with metastasis, 401

Carcinoma, squamous cell

cutaneous
expression, selectin ligands, 1220

Carcinoma, uterine cervix

primary
p53 gene mutations, MDM2 amplification, 1398

Cartilage

immunolocalization of matrix metalloproteinases
rabbit models of arthritis, 628

CD3

major infiltration of fetal tissue
maternal inflammatory cells, villitis of unknown etiology, 473

CD44

expression and association with survival
breast cancer, 867

Central nervous system

disease
disseminated BK type polyomavirus infection, AIDS patient, 29
neurons and primitive neuroectodermal tumor cells
220-kDa polypeptide, monoclonal antibodies to rat nestin fusion protein, 258

Cervical neoplasms

growth properties and physical state

HPV type 16 genome, 832

Cervix

- keratinocytes
 - ICAM-1 characterization and function, HPV-related disease, 355
- PCR-amplified HIV-1 nucleic acids
 - tumor necrosis factor cDNA, 40
- squamous metaplasia
 - analysis of cellular origin, 1150

Chédiak-Higashi syndrome

- ultrastructural morphology
- eosinophil granules, 618

Cholesterol

- clefts
 - transitional features, human atherosclerosis, 1444

Chromosomes

- aberrations
 - mesoblastic nephroma, 714
- 1;18 translocation
 - tumorigenicity, EBV-transformed lymphoblastoid cell line, 342
- translocations and deletions
 - use of FISH, 15

Cigarette smoking

- atherosclerosis
 - defense mechanism gone awry, 987

Cilia

- immotile
 - syndrome in pigs, 643

Ciliary body

- pigment epithelium
 - rasT24* oncogene, mice, 20

Cirrhosis

- cell-cell and cell-matrix adhesion proteins
 - sinusoidal endothelial cells, 738
- liver
 - defect of Fc receptors, phenotypical changes in sinusoidal endothelial cells, 105

Codon 12

- K-*ras* oncogene activation
 - pancreatic adenocarcinoma, 545

Collagen

- active synthesis by pulmonary arteries
 - human primary pulmonary hypertension, 121
- type I gene expression
 - human atherosclerosis, 1634

Collagenase

- immunolocalization of matrix metalloproteinases
 - rabbit models of arthritis, 628
- interstitial
 - gene expression, colonic neoplasia, 663
- mRNA
 - sections, healing human burn wounds, 1657

Colon

- neoplasia
 - interstitial collagenase gene expression, 663
- normal
 - transcription, carcinoembryonic antigen, 250

Complement membrane attack complex

- formation in myocardial infarction
- regulation of, 65

Complements

- extensive activation
 - porcine dense deposit disease, 1356
- fixation
 - demyelinating potential, myelin oligodendrocyte glycoprotein, 555

Cooper

- zinc and manganese superoxide dismutase
 - age-dependent basal level, induction capacity in leukocytes, 312

Corticosteroids

- chronic proliferative dermatitis
 - spontaneous mutation, C57BL mice, 972

Creutzfeldt-Jakob disease

- accumulation of abnormal prion protein
 - infection by intraperitoneal route, mice, 1470

α B-Crystallin

- HSP27 and
 - overexpression, Alexander disease, 1743
- 27-kd heat shock protein and
 - regulation by stress conditions, CNS and accumulation in Rosenthal fibers, 487

Cytochemistry

- ultrastructural morphology of eosinophil granules
- Chédiak-Higashi syndrome, 618

Cytofluorometry

- DNA
 - rat malignant fibrous histiocytoma, 431

Cytokeratin

- cervical squamous metaplasia
 - analysis of cellular origin, 1150

Cytokines

- atherosclerosis
 - defense mechanism gone awry, 987
- chemotactic
 - production of, allogeneic response, 1179
- gene mutation
 - transforming growth factor- β , knockout mice, 3
- ICAM-1 expression
 - transitional cell cancer, 191
- induced expression of human leukocyte antigens
 - cell adhesion molecules, human myotubes, 1142
- interleukin 4
 - down-regulation, astrocyte DNA synthesis and proliferation, 337

tumor necrosis factor and interleukin 6
 differential expression, peritoneal macrophages, 1121

Cytolysis

tumor necrosis factor-mediated
 protection, platelets, 1713

Cytomegalovirus

infection at midgestation
 cerebral atrophy, microphthalmia, 804

Cytoskeleton

abnormal assembly
 platelets, uremic patients, 823

Demyelination

potential of antibodies to myelin oligodendrocyte glycoprotein
 ability to fix complement, 555

Dendritic cells

interdigitating
 early course of SIV infection, thymus cortical epithelium, 699

Dermatitis

chronic proliferative
 spontaneous mutation, C57BL mice, 972

Diabetes

advanced glycation end products
 newly characterized receptor, tissues, 1699
 aging and
 human sympathetic autonomic ganglia, 143
 atherosclerosis
 defense mechanism gone awry, 987

9,10-Dimethyl-1,2-benzanthracene

-induced rat malignant fibrous histiocytoma
 immunohistochemistry, immunoelectron microscopy and DNA cytofluorometry, 431

Diseases

viruses and
 21st century, 1241

DNA

apoptosis
 activation by microtubule antagonists, rat hepatocytes, 918
 cytofluorometry
 rat malignant fibrous histiocytoma, 431
 stimulation of synthesis
 microtubule disruption, bovine endothelial cells, 937
 synthesis and proliferation
 down-regulation by interleukin 4, astrocytes, 337
 ultrastructural localization
 immune deposits, human lupus nephritis, 304

DNA, complementary

in situ polymerase chain reaction
 detection of mRNA expression, 1527

single

melanocyte lineage-specific antigens, recognition by monoclonal antibodies, 1579
 tumor necrosis factor
 PCR-amplified HIV-1 nucleic acids, cervical tissues, 40

Dystrophin

β -spectrin and
 localization, vacuolar myopathies, 1200

Edema

early coronary atherogenesis
 plasma protein insudation as an index, 496

Elafin

differential expression
 human epidermal tumors, 1679

ELAM

HIV-associated oral Kaposi's sarcoma, 240

Elastase

degradation of endothelial cell matrix
 heparan sulfate proteoglycan, 907

Encephalomyelitis

experimental autoimmune
 apoptosis, T cells, 446

Endometrium

mucosa during menstrual cycle
 tumor necrosis factor- α and its mRNA, 480

Endothelial cells

activation by tumor necrosis factor
 p55 tumor necrosis factor receptor, p75 at low concentrations, 1724
 HIV-associated oral Kaposi's sarcoma, 240
 matrix heparan sulfate proteoglycan
 degradation by elastase, myeloperoxidase-H₂O₂-chloride system, 907
 microtubule disruption
 stimulation of DNA synthesis, 937
 migrating bovine aortic
 U937 cell adhesion, fibronectin expression, 173
 production of plasminogen activator type 1
 atheromatous plaque macrophages, 875
 proliferation of endothelial component
 parathyroid gland, multiple endocrine neoplasia type 1, 612
 sinusoidal
 cell-cell and cell-matrix adhesion proteins, normal and cirrhotic human liver, 738
 phenotypical changes and defective Fc receptors, human liver cirrhosis, 105

Endothelium

activation
in vivo model, VCAM-1 and E-selectin, 725
 ICAM-3 expression
 lymphoid malignancy, 1040

Endotoxin

- challenged lung tissue
- polymorphonuclear leukocytes, source of tumor necrosis factor- α , 1009

Eosinophils

- colonic neoplasia
- interstitial collagenase gene expression, 663
- expression of heparin-binding EGF-like growth factor mRNA
- localization around lung microvessels, pulmonary hypertension, 784
- granules
- ultrastructural morphology, Chédiak-Higashi syndrome, 618
- sequential expression
- transforming growth factors α and β_1 , cutaneous wound healing in the hamster, 130

Epidermal growth factor

- like growth factor mRNA
- expression by eosinophils, pulmonary hypertension, 784

Epidermal tumors

- human
- differential expression, SKALP/elafin, 1679

Epithelial cells

- cervical squamous metaplasia
- analysis of cellular origin, 1150
- keratin 17 as marker of transformation
- viral warts, 1667
- proliferation in bile duct
- inhibition by octreotide, fibrosis after biliary obstruction, 1574

Epithelium

- bronchiolar
- response to ambient concentrations, ozone, 857
- ciliary body pigment and retinal pigment
- rasT24 oncogene, 20
- integrin cell substratum adhesion receptors
- extracellular matrix proteins, cutaneous human wound healing, 1458
- thymus cortical
- early course, simian immunodeficiency virus infection, 699
- tracheal
- immotile cilia syndrome, pigs, 643

Epstein-Barr virus

- adult T-cell leukemia/lymphoma, 1263
- association with gastric carcinoma
- lymphoid stroma, 1063
- bcl-2 proto-oncogene expression and, 1270
- gastric carcinoma, 1250
- lacrimal gland pathology and
- Sjögren's syndrome, 49
- latent gene expression

- tumor cell phenotype, AIDS-related non-Hodgkin's lymphoma, 1072
- latent protein EB nuclear antigen-2
- pyothorax-associated lymphomas, 1280
- pyothorax-associated pleural lymphoma, 1044
- transformed lymphoblastoid cell line
- tumorigenicity, 1;18 chromosomal translocation and CD11a expression, 342

Erratum, 648

Exocrine glands

- LFA-1 expression
- potential marker, malignant disease, 672

Extracellular matrix

- deposition of
- cooperation, Ito cells and hepatocytes, 538
- fibronectin expression
- U937 cell adhesion, migrating bovine aortic endothelial cells, 173
- modulation of growth by cell density
- protein synthesis, rat mesangial cells, 1209
- normal and neoplastic human brain
- integrin receptors, 154
- proteins
- integrin cell substratum adhesion receptors on epithelium, cutaneous human wound healing, 1458

Feline immunodeficiency virus

- predisposition for cats
- acute generalized toxoplasmosis, 1486

Fetal tissue

- major infiltration by maternal inflammatory cells
- villitis of unknown etiology, 473

Fetus

- human microglia
- productive infection by HIV-1, 1032
- perinatal hemochromatosis
- hepatic morphology, iron quantitation, 1312

Fibrin

- murine tissue factor gene expression, 76

Fibrinogen

- early coronary atherogenesis
- plasma protein insudation as an index, 496

Fibroblast growth factor

- basic
- angiogenic role, release by aorta after injury, 181
- differential effect on MyoD conversion, aortic smooth muscle cells, 269
- elevated expression, immortalized rabbit smooth muscle cell line, 518
- macrophage production, lung injury, 1189
- microtubule disruption, stimulation of DNA synthesis, 937

role, control of smooth muscle cell migration, 1024

Fibroblasts

rat malignant fibrous histiocytoma
immunohistochemistry, immunoelectron microscopy and DNA cytofluorometry, 431

Fibrogenesis

cooperation of Ito cells and hepatocytes
deposition, extracellular matrix, 538

Fibronectin

U937 cell adhesion
migrating bovine aortic endothelial cells, 173

Fibroproliferative disorder

alveolar fibrosis
macrophage production, basic fibroblast growth factor, 1189

Fibrosis

extrahepatic biliary obstruction
bile duct epithelial cell proliferation, inhibition by octreotide, 1574

FISH

detection of chromosomal translocations and deletions, 15

Foamy virus

proteins in neurons
multinucleated giant cells, brain of transgenic mice, 648

D-Galactosamine

model of liver regeneration
differentiation of progenitor cells, hepatocytes, 1606

Ganglia

human sympathetic autonomic
diabetes and aging, 143

Gastroenteropancreatic endocrine tumors

immunoreactivity and expression of amylin, 283

Gelatinases

immunolocalization of matrix metalloproteinases
rabbit models of arthritis, 628

Gel electrophoresis

pulsed-field
retinoic acid receptor- α , promyelocytic leukemia rearrangements, 1312

Gene

alterations
polymerase chain reaction, selective ultraviolet radiation fractionation, 1523
Epstein-Barr virus-latent
tumor cell phenotype, AIDS-related non-Hodgkin's lymphoma, 1072
insulin-like growth factor-2
anti-sense transcripts, Wilms' tumor, 1535
interstitial collagenase

expression, colonic neoplasia, 663
MDM2 amplification and *p53* mutations
primary carcinomas, uterine cervix, 1398
melanoma
putative marker, 656
murine tissue factor, 76
mutation
transforming growth factor- β , knockout mice, 3
MyoD
conversion of aortic smooth muscle cells, basic fibroblast growth factor, 269
Tat
extravasation and transcytosis of liposomes, Kaposi's sarcoma-like dermal lesions, 10
type I collagen
human atherosclerosis, 1634
type 1 plasminogen activator inhibitor
expression after partial hepatectomy, 753

Gestation

midpoint
infection with murine cytomegalovirus, cerebral atrophy and microphthalmia, 804

Giant cells

multinucleated
foamy virus proteins, brain of transgenic mice, 648

Glomerulonephritis

hereditary porcine membranoproliferative
extensive complement activation, 1356
human lupus nephritis
ultrastructural localization of DNA, immune deposits, 304
induction of different types
monoclonal antibodies, MRL/lpr lupus mouse, 1436

β -1,3-Glucan

development of functional diversity
mouse macrophages, 587

Glycoprotein

CD44 expression and association with survival
breast cancer, 867
GP330
detection of two forms, 598
myelin oligodendrocyte
demyelinating potential, ability to fix complement, 555

GP330

detection of two forms, 598

Granules

cytotoxic potential
intraepithelial lymphocytes, 350
eosinophil
ultrastructural morphology, Chédiak-Higashi syndrome, 618

Growth factors

- autocrine
- temporal expression, Habu snake venom-induced glomerulonephritis, 1366

Habu snake venom

- induced glomerulonephritis
- temporal expression, autocrine growth factors, 1366

Heart

- atheroma and
- diabetes mellitus, advanced glycosylation end-products, 1649
- early coronary atherogenesis
- plasma protein insudation as an index, 496
- hamster-into-rat xenograft rejection
- humoral and cellular immunopathology, 85
- ICAM-1 expression
- ischemia/reperfusion and limitation of infarct size, antibodies against cell adhesion molecules, 410
- infarct expansion and healing
- effects of late reperfusion, rats, 419

Heat shock protein

- 27-kd and α B-crystallin
- regulation by stress conditions, CNS and accumulation in Rosenthal fibers, 487

Hemochromatosis

- perinatal
- hepatic morphology, iron quantitation, 1312

Heparan sulfate proteoglycan

- degradation of endothelial cell matrix
- elastase, myeloperoxidase-H₂O₂-chloride system, 907

Heparin

- binding EGF-like growth factor mRNA
- expression by eosinophils, pulmonary hypertension, 784

Hepatectomy

- partial
- type 1 plasminogen activator inhibitor gene expression, 753

Hepatitis C virus

- immunohistochemical detection of NS4 antigen
- relation to histopathology, 1568

Hepatocarcinogenesis

- early stages
- oval cell proliferation, SV40 large T antigen transgenic mice, 1326

Hepatocyte growth factor

- activation by plasminogen activators, 949

Hepatocytes

- activation of apoptosis
- microtubule antagonists, 918

- differentiation of progenitor cells
- D-galactosamine model, liver regeneration, 1606
- morphology
- iron quantitation, perinatal hemochromatosis, 1312
- paraffin
- reactive monoclonal antibody, differential diagnosis of hepatic tumors, 1050

Heptocytes

- lto cells and
- cooperation, deposition of extracellular matrix, 538

Histiocytoma

- rat malignant fibrous
- immunohistochemistry, quantitative immunoelectron microscopy and DNA cytofluorometry, 431

HIV-1

- in situ* hybridization of RNA
- retinal vascular wall, 1275
- PCR-amplified nucleic acids
- tumor necrosis factor cDNA, cervical tissues, 40
- productive infection
- human fetal microglia, 1032

Hodgkin's disease

- constitutive expression of tenascin
- T-dependent zones, human lymphoid tissues, 1348
- Epstein-Barr virus infection
- bcl-2* proto-oncogene expression, 1270

Homing

- human peripheral lymph node vascular addressin, 1688

HSP27

- α B-crystallin and
- overexpression, Alexander disease, 1743

Human immunodeficiency virus

- associated oral Kaposi's sarcoma, 240
- sera and macrophage supernatants
- mesangial cell proliferation, matrix synthesis, 814
- Tat gene in transgenic mice
- extravasation and transcytosis of liposomes, Kaposi's sarcoma-like dermal lesions, 10

Human papillomavirus

- related disease
- ICAM-1 characterization and function, cervical keratinocytes, 355
- type 16 genome
- growth properties and physical state, primary cervical tumors, 832

Hybridization

in situ

- deficient differentiation of mast cells, skin of *mi/mi* mice, 1337

Hypercholesterolemia

- atherosclerosis
- defense mechanism gone awry, 987

Hyperplasia

- ocular pathology
- rasT24* oncogene, 20

Hypersensitivity

- homologous interleukin 3
- acute side effects, monkeys, 1621

Hypersensitivity, delayed-type

- inhibition of inflammation
- dual inhibition, VLA-4 and LFA-1, 1286

Hypertension

- atherosclerosis
- defense mechanism gone awry, 987
- human primary pulmonary
- active collagen synthesis, pulmonary arteries, 121
- pulmonary
- heparin-binding EGF-like growth factor mRNA, expression by eosinophils, 784

ICAM

- HIV-associated oral Kaposi's sarcoma, 240

ICAM-1

- characterization and functional analysis
- human papillomavirus-related disease, cervical keratinocytes, 355
- expression in rat heart
- ischemia/reperfusion and limitation of infarct size, antibodies against cell adhesion molecules, 410
- $\beta 2$ integrins and
- lung injury, ischemia-reperfusion of hind limbs, 464
- production of chemotactic cytokines
- allogeneic response, 1179
- transitional cell cancer, 191

ICAM-3

- bearing cells
- distribution in human tissues, 774
- expression on endothelium
- lymphoid malignancy, 1040

Immune complexes

- immune deposits
- ultrastructural localization of DNA, human lupus nephritis, 304

Immune system

- SCID mouse
- relevance, study of human disease, 1511

Immunity

- ICAM-1 expression
- transitional cell cancer, 191

Immunocytes

- keratinocytes
- integument, 325

Immunocytochemistry

- biochemistry and
- Heymann nephritis antigenic complex, rat L2 yolk sac cells, 1436
- β -protein precursor
- component of neurofibrillary tangles, Alzheimer's disease, 1586

Immunodeficiency

- mice with human skin grafts
- growth and invasion, human melanomas, 528

Immunohistochemistry

- intimal microvessels
- coronary atherosclerosis, 164
- intraepithelial and subepithelial mononuclear cells
- upper airways, 1436
- localization of advanced glycosylation endproducts
- coronary atheroma and cardiac tissue, diabetes mellitus, 1649
- localization of Trk receptor protein
- pediatric small round blue cell tumors, 1560
- NS4 antigen
- hepatitis C virus, relation to histopathology, 1568
- p53
- human lung carcinoma, 199
- rat malignant fibrous histiocytoma
- immunoelectron microscopy, DNA cytofluorometry, 431

Infectious disease

- placenta revealed, 332

Inflammation

- cutaneous delayed-type hypersensitivity-induced
- dual inhibition, VLA-4 and LFA-1, 1286
- experimental autoimmune encephalomyelitis
- apoptosis, T cells, 446

Inflammatory cells

- maternal
- major infiltration of fetal tissue, villitis of unknown etiology, 473

Inflammatory disease

- transforming growth factor- β , knockout mice, 3

Insulin-like growth factor-2

- gene in Wilms' tumor
- anti-sense transcripts, 1535

Insulinoma

- gastroenteropancreatic endocrine tumors
- immunoreactivity and expression, amylin, 283

Integrins

$\beta 1$

localization and extracellular ligands, human lymphoid tissues, 1098

$\beta 2$

ICAM-1 and, lung injury after ischemia-reperfusion of hind limbs, 464

cell substratum adhesion receptors on epithelium
extracellular matrix proteins, cutaneous human wound healing, 1458

Integument

keratinocytes as key immunocytes, 325

β -Interferon

development of functional diversity
mouse macrophages, 587

γ -Interferon

tumor necrosis factor- α and
antirickettsial effect, induction of NO synthesis, 1016

Interleukin 1

receptor antagonist
production, human bronchogenic carcinoma, 794
tumor necrosis factor- α and
limb ischemia/reperfusion injury, associated lung injury, 453

Interleukin 3

homologous
acute side effects, monkeys, 1621

Interleukin 4

down-regulation
adult human astrocyte DNA synthesis, proliferation, 337

Interleukin 6

tumor necrosis factor and
differential expression, peritoneal macrophages, 1121

Interstitial cells

idiopathic pulmonary fibrosis
expression and localization, tumor necrosis factor- α and its mRNA, 651

Intestine

cytotoxic potential
intraepithelial lymphocytes, 350
immunoreactivity and expression of amylin
gastroenteropancreatic endocrine tumors, 283

Intima

microvessels
immunohistochemistry, coronary microvessels, 164

Iron

quantitation and hepatic morphology
perinatal hemochromatosis, 1312

Ischemia

-reperfusion

associated lung injury, tumor necrosis factor- α and interleukin 1, 453

ICAM-1 expression, rat heart, 410

-reperfusion of hind limbs

lung injury, $\beta 2$ integrins and ICAM-1, 464

Ito cells

hepatocytes and
cooperation, deposition of extracellular matrix, 538

Kaposi's sarcoma

HIV-associated, 240

Keratin 17

marker for epithelial transformation
viral warts, 1667

Keratinocytes

cervical
ICAM-1 characterization and function, HPV-related disease, 355
key immunocytes of the integument, 325

Kidney

murine tissue factor gene expression, 76

K-ras

oncogene activation
pancreatic adenocarcinoma, 545
pancreatic acinar cell carcinoma, 685

Lacrimal gland

pathology
Epstein-Barr virus, Sjögren's syndrome, 49

Lamins

nuclear A-type
differential expression, human lung cancer subtypes, 211

Langerhans cells

ICAM-3-bearing cells
distribution in human tissues, 774

L2 cells

immunocytochemical and biochemical characterization
Heymann nephritis antigenic complex, 1366

Leukemia, hairy cell

constitutive expression of tenascin
T-dependent zones, human lymphoid tissues, 1348

Leukemia, promyelocytic

rearrangements
retinoic acid receptor- α , pulsed-field gel electrophoresis, 1312

Leukemia, T-cell

-lymphoma
Epstein-Barr virus, 1263

Leukocytes

- age-dependent basal level and induction capacity
- cooper-zinc and manganese superoxide dismutase, 312
- cytokine-induced expression of human antigens
- cell adhesion molecules, human myotubes, 1142
- polymorphonuclear
 - source of tumor necrosis factor- α , endotoxin-challenged lung tissue, 1009

Leukoencephalopathy

- T-cell infiltration and expression
- MHC class II antigen, macrophages and microglia, 579

LFA-1

- expression on exocrine glands
- potential marker, malignant disease, 672
- ICAM-3-bearing cells
- distribution in human tissues, 774
- VLA-4 and
 - inhibition, cutaneous delayed-type hypersensitivity-induced inflammation, 1286

LFA-1a

- chromosomal 1;18 translocation
- tumorigenicity, EBV-transformed lymphoblastoid cell line, 342

LFA-3

- production of chemotactic cytokines
- allogeneic response, 1179

Ligands

- extracellular
- localization of $\beta 1$ integrins, human lymphoid tissues, 1098
- selectin
 - expression, cutaneous squamous cell carcinoma, 1220

Limb

- ischemia/reperfusion injury
- associated lung injury, tumor necrosis factor- α and interleukin 1, 453

Limbic system

- olfactory pathway and
- viral infection and dissemination, Theiler's virus, 221

Lipopolysaccharide

- murine tissue factor gene expression, 76

Liposomes

- extravasation and transcytosis
- Kaposi's sarcoma-like dermal lesions, HIV Tat gene in transgenic mice, 10

Liver

- cirrhosis
- defect of Fc receptors, phenotypical changes in sinusoidal endothelial cells, 105

- hamster-into-rat xenograft rejection
- humoral and cellular immunopathology, 85
- metastases
- morphological aspects, angiogenesis, 926
- morphology and iron quantitation
- perinatal hemochromatosis, 1312
- normal and cirrhotic
 - cell-cell and cell-matrix adhesion proteins, sinusoidal endothelial cells, 738
- partial hepatectomy
 - type 1 plasminogen activator inhibitor gene expression, 753
- regeneration
 - D-galactosamine model, progenitor cell differentiation into hepatocytes, 1606
- tumors
 - differential diagnosis, hepatocyte paraffin, 1050

Lung

- associated injury and limb ischemia/reperfusion injury
- tumor necrosis factor- α , interleukin 1, 453
- bleomycin-induced fibrosis
- rat alveolar myofibroblasts, α -smooth muscle actin, 1754
- endotoxin-challenged tissue
- polymorphonuclear leukocytes, source of tumor necrosis factor- α , 1009
- human primary pulmonary hypertension
- active collagen synthesis, pulmonary arteries, 121
- idiopathic pulmonary fibrosis
- expression and localization, tumor necrosis factor- α and its mRNA, 651
- injury
 - ischemia-reperfusion of hind limbs, $\beta 2$ integrins and ICAM-1, 464
 - macrophage production, basic fibroblast growth factor, 1189
 - monocyte chemoattractant protein 1, rat lung organ cultures, 894
- microvessels
 - heparin-binding EGF-like growth factor mRNA, expression by eosinophils, 784
 - murine tissue factor gene expression, 76
- neoplasm subtypes
 - differential expression, nuclear A-type lamins, 211

Lupus

- MRL/lpr lupus mouse
- induction of different types of glomerulonephritis, monoclonal antibodies, 1436
- nephritis
- ultrastructural localization of DNA, immune deposits, 304

Lyme disease

- chronic Lyme borreliosis
- laboratory mouse, 959

Lymph node

- metastases
 - immunocytochemical localization of secreted TGF- β_1 , mammary carcinoma, 381
- vascular addressin
- involvement in homing, 1688

Lymphoblastoid cells

- EBV-transformed
 - tumorigenicity, chromosomal 1;18 translocation, 342

Lymphocytes

- intraepithelial
- cytotoxic potential, 350

Lymphoid neoplasms

- ICAM-3 expression on endothelium, 1040

Lymphoid tissues

- localization of β_1 integrins
- extracellular ligands, 1098
- T-dependent zones
- constitutive expression, tenascin, 1348

Lymphoma

- adult T-cell leukemia
 - Epstein-Barr virus, 1263
- diffuse large cell and large cell immunoblastic
 - MHC class I and class II antigen expression, 1086
- pyothorax-associated
 - Epstein-Barr virus latent protein EB nuclear antigen-2, 1280
- pyothorax-associated pleural
 - Epstein-Barr virus, 1044

Lymphoma, large cell

- anaplastic
- high levels, p53 protein expression, 845

Lymphoma, non-Hodgkin's

- AIDS-related
 - Epstein-Barr virus-latent gene expression, tumor cell phenotype, 1072
- clonal B cell population
- paraffin-embedded tissues, 230

Lysosomes

- eosinophil granules
- ultrastructural morphology, Chédiak-Higashi syndrome, 618

Macrophages

- angiogenic
- production of thrombospondin 1, 678
- atheromatous plaque

- plasminogen activator type 1, production by endothelial cells and vascular smooth muscle cells, 875

expression of osteopontin mRNA

- atherosclerotic plaques, 1003

HIV-associated oral Kaposi's sarcoma, 240

mouse

- development, functional diversity, 587
- multicellular tumor spheroids and co-culture, three-dimensional model, 1406
- peritoneal
 - differential expression, tumor necrosis factor and interleukin 6, 1121
- production of basic fibroblast growth factor
- fibroproliferative disorder of alveolar fibrosis, lung injury, 1189
- rat malignant fibrous histiocytoma
 - immunohistochemistry, immunoelectron microscopy and DNA cytofluorometry, 431
- supernatants
 - HIV sera and, mesangial cell proliferation and matrix synthesis, 814
- T-cell infiltration and expression
 - MHC class II antigen, leukoencephalopathy, 579

Major histocompatibility complex

- class I and class II antigen expression
- diffuse large cell and large cell immunoblastic lymphomas, 1086
- class II
 - T-cell infiltration and expression, macrophages and microglia in leukoencephalopathy, 579

Malignancy

- human skin grafted to immunodeficient mice
- growth and invasion, human melanomas, 528
- lymphoid
 - ICAM-3 expression, endothelium, 1040
- potential marker
- LFA-1 expression, 672

Manganese superoxide dismutase

- copper-zinc and
- age-dependent basal level, induction capacity in leukocytes, 312

Mast cells

- deficient differentiation
- skin *mi/mi* mice, 1337

Matrix

- synthesis and mesangial cell proliferation
- effects, HIV sera and macrophage supernatants, 814

Medulloblastoma

- monoclonal antibodies to rat nestin fusion protein
- 220-kDa polypeptide, CNS neurons and primitive neuroectodermal tumor cells, 258

Megakaryocytes

- maturing human
- effect of thrombin, 1498
- synthesized apolipoprotein J
- platelet activation, 763

Melanocyte

- lineage-specific antigens
- recognition by monoclonal antibodies, encoding by single cDNA, 1579

Melanoma

- growth and invasion
- human skin grafted to immunodeficient mice, 528
- human
- putative marker, 656
- regressing thin cutaneous malignant angiogenesis, 99

Menstrual cycle

- endometrial mucosa
- tumor necrosis factor- α and its mRNA, 480

Mesangial cells

- cell density
- modulation of growth, extracellular matrix, 1209
- Habu snake venom-induced glomerulonephritis
- temporal expression, autocrine growth factors, 1366
- proliferation and matrix synthesis
- effects, HIV sera and macrophage supernatants, 814

Mesenchymal cells

- excisional wound repair
- spatial and temporal patterns, TGF- $\beta_1/\beta_2/\beta_3$, 368

Metalloproteinases

- rabbit models of arthritis, 628

Metastasis

- colonic neoplasia
- interstitial collagenase gene expression, 663
- liver
- morphological aspects, angiogenesis, 926
- lymph node
- immunocytochemical localization of secreted TGF- β_1 , mammary carcinoma, 381
- tumor angiogenesis
- invasive prostate carcinoma, 401

Mice

- inbred CE/J strain
- characterization, amyloid resistance, 1480
- transforming growth factor- β_1 , 3
- transgenic
- rasT24 oncogene, ocular pathology, 20

Microglia

- human fetal

- productive infection by HIV-1, 1032

- T-cell infiltration and expression

- MHC class II antigen, leukoencephalopathy, 579

Microphthalmia

- cerebral atrophy and
- infection at midgestation, murine cytomegalovirus, 804

Microscopy

- intravital
- dorsal skinfold chamber technique, nude mice, 1055

Microtubule

- antagonists
- activation of apoptosis, rat hepatocytes, 918
- disruption
- stimulation of DNA synthesis, bovine endothelial cells, 937

Microvasculature

- pericytes
- platelet-derived growth factor- β receptors, healing wounds and colorectal adenocarcinoma, 1389

Microvessels

- intimal
- immunohistochemistry, coronary atherosclerosis, 164

Monoclonal antibodies

- induction of different types
- glomerulonephritis, MRL/lpr lupus mouse, 1436
- myelin oligodendrocyte glycoprotein
- demyelinating potential, ability to fix complement, 555
- putative marker for human melanoma, 656
- rat nestin fusion protein
- 220-kDa polypeptide, CNS neurons and primitive neuroectodermal tumor cells, 258
- recognition of melanocyte lineage-specific antigens
- encoding by single cDNA, 1579

Monocyte chemoattractant protein 1

- mediated lung injury
- rat lung organ cultures, 894

Mononuclear cells

- intraepithelial and subepithelial
- immunohistochemistry, upper airways, 1436
- U937 cell adhesion
- migrating bovine aortic endothelial cells, fibronectin expression, 173

Morphometry

- ultrastructural morphology of eosinophil granules
- Chédiak-Higashi syndrome, 618

Mucin

- cervical squamous metaplasia

analysis of cellular origin, 1150

Mucosa

endometrial

tumor necrosis factor- α and its mRNA, 480

Multiple endocrine neoplasia

type 1

proliferation, endothelial component of parathyroid gland, 612

Muscle, smooth

α -actin

rat alveolar myofibroblasts, bleomycin-induced pulmonary fibrosis, 1754

aorta

basic fibroblast growth factor, MyoD conversion, 269

control of migration

basic fibroblast growth factor, 1024

immortalized rabbit cell line

elevated expression, basic fibroblast growth factor, 518

vascular

inducible VCAM-1 expression, rabbit atheroma, 1551

production of plasminogen activator type 1, atherosclerotic plaque macrophages, 875

Myelin

oligodendrocyte glycoprotein

demyelinating potential, ability to fix complement, 555

T-cell infiltration and expression

MHC class II antigen, leukoencephalopathy, 579

Myeloperoxidase

-H₂O₂-chloride system

degradation, endothelial cell matrix heparan sulfate proteoglycan, 907

Myocardium

infarction

regulation, complement membrane attack complex formation, 65

Myofibroblasts

rat alveolar

α -smooth muscle action, bleomycin-induced pulmonary fibrosis, 1754

Myopathy

vacuolar

localization, dystrophin and β -spectrin, 1200

Myotubes

cytokine-induced expression of human leukocyte antigens

cell adhesion molecules, 1142

Neointimal cells

human primary pulmonary hypertension

active collagen synthesis, pulmonary arteries, 121

Nephritis

Heymann

antigenic complex, immunocytochemical and biochemical characterization in rat L2 cells, 1436

detection, two forms of GP330, 598

Nephroma

mesoblastic

chromosome aberrations, 714

Nestin fusion protein

monoclonal antibodies

220-kDa polypeptide, CNS neurons and primitive neuroectodermal tumor cells, 258

Neurites

biochemical and anatomical redistribution

tau protein, Alzheimer's disease, 565

Neuroblastoma

pediatric small round blue cell tumors

immunohistochemical localization, Trk receptor protein, 1560

unfavorable histology and N-myc amplification

apoptosis-suppressing protein *bcl-2*, 1543

Neuroectodermal neoplasms

peripheral

detection of (11;22)(q24;q12) translocation, RT-PCR, 1294

Neurofibrillary tangles

β -protein precursor

immunocytochemistry, Alzheimer's disease, 1586

Neurons

CNS

220-kDa polypeptide, monoclonal antibodies to rat nestin fusion protein, 258

foamy virus proteins

multinucleated giant cells, brain of transgenic mice, 648

Neutrophils

degradation of endothelial cell matrix

heparan sulfate proteoglycan, elastase, 907

Nitric oxide

induction of synthesis

antirickettsial effect, interferon- γ and tumor necrosis factor- α , 1016

NS4 antigen

immunohistochemical detection

hepatitis C virus, relation to histopathology, 1568

Nucleic acids

PCR-amplified HIV-1

tumor necrosis factor cDNA, cervical tissues, 40

Octreotide

inhibition of bile duct epithelial cell proliferation
 fibrosis, extrahepatic biliary obstruction, 1574

Olfaction

viral infection and dissemination
 Theiler's virus, 221

Oncogenes

K-ras
 activation, pancreatic adenocarcinoma, 545
rasT24
 ciliary body pigment epithelium, retinal pigment
 epithelium, 20

Oncoprotein

bcl-2
 suppression of apoptosis, hormone-refractory
 human prostate cancers, 390

Osteopontin

mRNA expression by macrophages
 atherosclerotic plaques, calcification, 1003

Oval cells

proliferation
 early stages of hepatocarcinogenesis, SV40
 large T antigen transgenic mice, 1326

Ozone

ambient concentrations
 response, bronchiolar epithelium, 857

p53

gene mutations and MDM2 amplification
 primary carcinomas, uterine cervix, 1398
 high levels of protein expression
 no correlation with gene mutations, anaplastic
 large cell lymphoma, 845
 immunohistochemistry
 human lung carcinoma, 199
 nuclear protein accumulation
 mutations in gene, stage of bladder cancer,
 1389
 pancreatic acinar cell carcinoma, 685

p60

p80 tumor necrosis factor- α receptor mRNA
 protein, human placenta, 1131

Pancreas

derivation of ductlike cell lines
 transplantable acinar cell carcinoma, 292

Paraffin

-embedded specimens
 use of FISH, chromosomal translocations and
 deletions, 15
 -embedded tissues
 clonal B cell populations, polymerase chain re-
 action, 230
 hepatocyte

reactive monoclonal antibody, differential diag-
 nosis of hepatic tumors, 1050

Parathyroid gland

endothelial component
 proliferation of, multiple endocrine neoplasia
 type 1, 612

Parathyroidlike protein

expression in breast tissues, 1169

Pericytes

microvascular
 platelet-derived growth factor- β receptors, heal-
 ing wounds and colorectal adenocarcinoma,
 1389

Phagocytes

synovial lining cells
 role, onset of experimental arthritis, 1226

Placenta

p60 and p80 tumor necrosis factor- α receptor
 mRNA
 protein and, 1131
 revealed, 332

Plaques

diffuse
 "preamyloid", Alzheimer's disease, 1594
 type I collagen gene expression
 human atherosclerosis, 1634

Plasma

protein insudation
 index of early coronary atherogenesis, 496

Plasminogen activator

type 1 inhibitor gene expression
 partial hepatectomy, 753
 type 1 production by endothelial cells
 vascular smooth muscle cells, atheromatous
 plaque macrophages, 875
 uPA and tPA
 activation, hepatocyte growth factor, 949

Platelets

abnormal cytoskeleton assembly
 uremic patients, 823
 activation
 release, megakaryocyte-synthesized apolipo-
 protein J, 763
 tumor necrosis factor-mediated cytolysis
 protection, 1713

Polyinosinate-polycytidyate

development of functional diversity
 mouse macrophages, 587

Polymerase chain reaction

-amplified HIV-1 nucleic acids
 tumor necrosis factor cDNA, cervical tissues, 40
 clonal B cell populations
 paraffin-embedded tissues, 230
in situ cDNA

- detection of mRNA expression, 1527
- K-ras oncogene activation
- pancreatic adenocarcinoma, 545
- reverse transcription
- detection of (11;22)(q24;q12) translocation, Ewing's sarcoma, 1294
- selective ultraviolet radiation fractionation
- genetic alterations, 1523

Polyomavirus

- disseminated BK type
- central nervous system disease, AIDS patient, 29

Pregnancy

- major infiltration of fetal tissue
- maternal inflammatory cells, villitis of unknown etiology, 473
- placenta revealed, 332

Prion

- accumulation of abnormal protein in mice
- Creutzfeldt-Jakob disease, infection by intra-peritoneal route, 1470

Progenitor cells

- differentiation into hepatocytes
- D-galactosamine model, liver regeneration, 1606

Prostatic neoplasms

- hormone-refractory
- detection of *bcl-2*, 390

β -Protein

- precursor
- immunocytochemistry, neurofibrillary tangles of Alzheimer's disease, 1586

Proteinuria

- degradation of endothelial cell matrix
- heparan sulfate proteoglycan, elastase, 907

Proto-oncogenes

- bcl-2*
- Epstein-Barr virus, 1270

Pyothorax

- associated lymphomas
- Epstein-Barr virus latent protein EB nuclear antigen-2, 1280
- associated pleural lymphoma
- Epstein-Barr virus, 1044

Receptors

- Fc
- phenotypical changes in sinusoidal endothelial cells, human liver cirrhosis, 105
- ICAM-3-bearing cells
- distribution in human tissues, 774
- integrin
- normal and neoplastic human brain, 154
- integrin cell substratum adhesion

- extracellular matrix proteins, cutaneous human wound healing, 1458
- interleukin 1
- antagonist, production by human bronchogenic carcinoma, 794
- p60 and p80 tumor necrosis factor- α
- mRNA and protein, human placenta, 1131
- platelet-derived growth factor- β
- microvascular pericytes, healing wounds and colorectal adenocarcinoma, 1389
- retinoic acid α
- pulsed-field gel electrophoresis, promyelocytic leukemia rearrangements, 1312
- Trk protein
- immunohistochemical localization, pediatric small round blue cell tumors, 1560
- tumor necrosis factor p55 and p75
- activation, human endothelial cells, 1724
- vascular permeability factor
- kidney and bladder carcinomas, 1255

Reperfusion

- late
- infarct expansion and healing, rats, 419

Reproduction

- placenta revealed, 332

Retina

- pigment epithelium
- rasT24* oncogene, mice, 20
- vascular wall
- in situ* hybridization, HIV-1 RNA, 1275

Retinoic acid

- receptor- α
- pulsed-field gel electrophoresis, promyelocytic leukemia rearrangements, 1312

Reverse transcription

- polymerase chain reaction
- detection of (11;22)(q24;q12) translocation, Ewing's sarcoma, 1294

Ribonuclease

- inhibitor
- expression of anti-angiogenic properties, reduced tumor growth in mice, 507

Rickettsiae

- antirickettsial effect
- interferon- γ and tumor necrosis factor- α , induction of NO synthesis, 1016

RNA

- development of functional diversity
- mouse macrophages, 587
- HIV-1
- in situ* hybridization, retinal vascular wall, 1275

RNA, messenger

- antithrombin III
- pathogenesis, Alzheimer's disease, 886

collagenase and TIMP
sections, healing human burn wounds, 1657
detection of expression
 in situ cDNA polymerase chain reaction, 1527
osteopontin
 expression by macrophages, atherosclerotic
 plaques, 1003
p60 and p80 tumor necrosis factor- α receptor
 protein and, human placenta, 1131
tumor necrosis factor- α
 endometrial mucosa during menstrual cycle,
 480
 expression and localization, idiopathic pulmo-
 nary fibrosis, 651

Rosenthal fibers

regulation of α B-crystallin and 27-kd heat shock
 protein
 central nervous system, 487

Rous-Whipple award

Oldstone, Michael B.
 viruses and diseases of the 21st century, 1241
Ross, Russell
 atherosclerosis, defense mechanism gone awry,
 987

Sarcoma

Ewing's
 detection of (11;22)(q24;q12) translocation, RT-
 PCR, 1294
Kaposi's
 extravasation and transcytosis of liposomes,
 HIV Tat gene in transgenic mice, 10
synovial
 chromosomal translocations and deletions, use
 of FISH, 15

Selectin

ligands
 expression, cutaneous squamous cell carci-
 noma, 1220

E-Selectin

VCAM-1 and
 in vivo model, endothelial activation, 725

Sepsis

Gram-negative
 murine tissue factor gene expression, 76

Serine

protease inhibitor antithrombin III
 mRNA, pathogenesis of Alzheimer's disease,
 886

Sertoli cells

tumorigenic cell line
 temperature sensitivity, differentiation, 1159

Severe combined immunodeficiency

mouse

relevance, study of human disease, 1511

Signal transduction

keratinocytes
 key immunocytes of the integument, 325

Simian immunodeficiency virus

early course of infection
 alterations, thymus cortical epithelium, 699

Simian virus 40

large T antigen transgenic mice
 oval cell proliferation, early stages of hepatocar-
 cinogenesis, 1326

Sjögren's syndrome

lacrimal gland pathology
 Epstein-Barr virus, 49

Skin

chronic proliferative dermatitis
 spontaneous mutation, C57BL mice, 972
human
 grafted to immunodeficient mice, growth and in-
 vasion of human melanomas, 528
integument
 keratinocytes, key immunocytes, 325
Kaposi's sarcoma-like dermal lesions
 extravasation and transcytosis of liposomes, Tat
 gene in transgenic mice, 10
 mi/mi mice
 deficient differentiation of mast cells, 1337

Skin-derived antileukoproteinase

differential expression
 human epidermal tumors, 1679

Skinfold chamber technique

intravital microscopy in nude mice, 1055

Somatostatin analogue

inhibition of bile duct epithelial cell proliferation
 fibrosis, extrahepatic biliary obstruction, 1574

β -Spectrin

dystrophin and
 localization, vacuolar myopathies, 1200

Spheroids

multicellular
 macrophage co-culture, three-dimensional
 model, 1406

Spleen

IgM⁺⁺/bright/IgD⁺ B cells
 humoral and cellular immunopathology, hepatic
 and cardiac hamster-into-rat xenograft rejec-
 tion, 85

Stress

regulation of α B-crystallin and 27-kd heat shock
 protein
 central nervous system, accumulation in Rosen-
 thal fibers, 487

Stress proteins

modulation of growth by cell density

- extracellular matrix, mesangial cells, 1209
- Stroma**
colonic neoplasia
interstitial collagenase gene expression, 663
lymphoid
association of Epstein-Barr virus, gastric carcinoma, 1063
- Stromelysin**
immunolocalization of matrix metalloproteinases
rabbit models of arthritis, 628
- Synovium**
immunolocalization of matrix metalloproteinases
rabbit models of arthritis, 628
- Tau protein**
biochemical and anatomical redistribution
Alzheimer's disease, 565
- T cells**
apoptosis
experimental autoimmune encephalomyelitis, 446
ICAM-3-bearing cells
distribution in human tissues, 774
infiltration and expression
MHC class II antigen by macrophages and microglia, leukoencephalopathy, 579
keratinocytes
key immunocytes of the integument, 325
major infiltration of fetal tissue
maternal inflammatory cells, villitis of unknown etiology, 473
- Temperature**
sensitivity for differentiation
tumorigenic murine Sertoli cell line, 1159
- Tenascin**
constitutive expression
T-dependent zones, human lymphoid tissues, 1348
- Theiler's virus**
viral infection and dissemination
olfactory pathway, limbic system, 221
- Thrombin**
effect on maturing human megakaryocytes, 1498
- Thrombospondin 1**
production by angiogenic macrophages, 678
- Thymus**
cortical epithelium
early course, simian immunodeficiency virus infection, 699
- TIA-1**
cytotoxic potential
intraepithelial lymphocytes, 350
- TIMP**
mRNA
sections, healing human burn wounds, 1657
- Tissue factor**
gene expression in mice, 76
- Tissues**
advanced glycation end products
newly characterized receptor, 1699
- Toxoplasmosis**
acute generalized
predisposition, feline immunodeficiency virus, 1486
- Trachea**
immotile cilia syndrome in pigs, 643
- Transforming growth factors**
 α and β_1
sequential expression by eosinophils, cutaneous wound healing in the hamster, 130
 β_1
immunocytochemical localization, human mammary carcinoma, 381
knockout mice, 3
 $\beta_1/\beta_2/\beta_3$
spatial and temporal patterns, excisional wound repair, 368
- Transitional cell cancer**
ICAM-1 expression, 191
- Transplantation**
human bone marrow
white pulp reconstitution, 1111
- Trophoblasts**
placenta revealed, 332
- Tumorigenicity**
Epstein-Barr virus-transformed lymphoblastoid cell line
1;18 chromosomal translocation, CD11a expression, 342
Sertoli cell line
temperature sensitivity, differentiation, 1159
- Tumor necrosis factor**
activation of human endothelial cells
p55 tumor necrosis factor receptor, p75 at low concentrations, 1724
complementary DNA
PCR-amplified HIV-1 nucleic acids, cervical tissues, 40
interleukin 6 and
differential expression, peritoneal macrophages, 1121
-mediated cytolysis by platelets
protection, 1713
- Tumor necrosis factor- α**
expression and localization
its mRNA, idiopathic pulmonary fibrosis, 651
interferon- γ and

- antirickettsial effect, induction of NO synthesis, 1016
- interleukin 1 and
 - limb ischemia/reperfusion injury, associated lung injury, 453
- its mRNA and
 - endometrial mucosa during menstrual cycle, 480
- p60 and p80 receptor mRNA and protein human placenta, 1131
- polymorphonuclear leukocytes as source endotoxin-challenged lung tissue, 1009

Tumor progression

- growth properties and physical state
- HPV type 16 genome, cervical tumors, 832

U937 cells

- adhesion to migrating bovine aortic endothelial cells
- fibronectin expression, 173

Ultrastructure

- morphology of eosinophil granules
- Chédiak-Higashi syndrome, 618

Ultraviolet radiation

- selective fractionation
- polymerase chain reaction, genetic alterations, 1523

Uremia

- abnormal cytoskeleton assembly
- platelets, 823

Urinary bladder

- transitional cell cancer
- ICAM-1 expression, 191

Vascular permeability factor

- its receptors and
- kidney and bladder carcinomas, 1255

Vasculature

- retinal wall
- in situ* hybridization, HIV-1 RNA, 1275

VCAM-1

- inducible expression
- vascular smooth muscle cells, rabbit atheroma, 1551
- E-selectin and
 - in vivo* model, endothelial activation, 725

Villitis

- unknown etiology
- major infiltration of fetal tissue, maternal inflammatory cells, 473

Viruses

- diseases and
- 21st century, 1241

VLA-4

- LFA-1 and
- inhibition, cutaneous delayed-type hypersensitivity-induced inflammation, 1286

Warts

- viral
- keratin 17 as marker, epithelial transformation, 1667

White pulp

- reconstitution
- human bone marrow transplantation, 1111

Wilms' tumor

- anti-sense transcripts
- insulin-like growth factor-2, 1535

Wound healing

- cutaneous
- sequential expression, transforming growth factors α and β_1 , 130
- extracellular matrix proteins
- integrin cell substratum adhesion receptors, endothelium, 1458
- microvascular pericytes
- platelet-derived growth factor- β receptors, 1389

Wound repair

- excisional
- spatial and temporal patterns, TGF- $\beta_1/\beta_2/\beta_3$, 368

Xenografts

- hamster-into-rat
- humoral and cellular immunopathology, liver and heart, 85

Zinc

- copper and manganese superoxide dismutase
- age-dependent basal level and induction capacity, leukocytes, 312
